

GRAVITY TRANSFER

Span Tech's Gravity Transfers are capable of transferring even the smallest products.

Easy Removal

Gravity Transfers roller bridge can be easily lifted out and replaced

Options Available

Dead Plate Transfers are also available and are custom designed and fitted to your system

Configurable

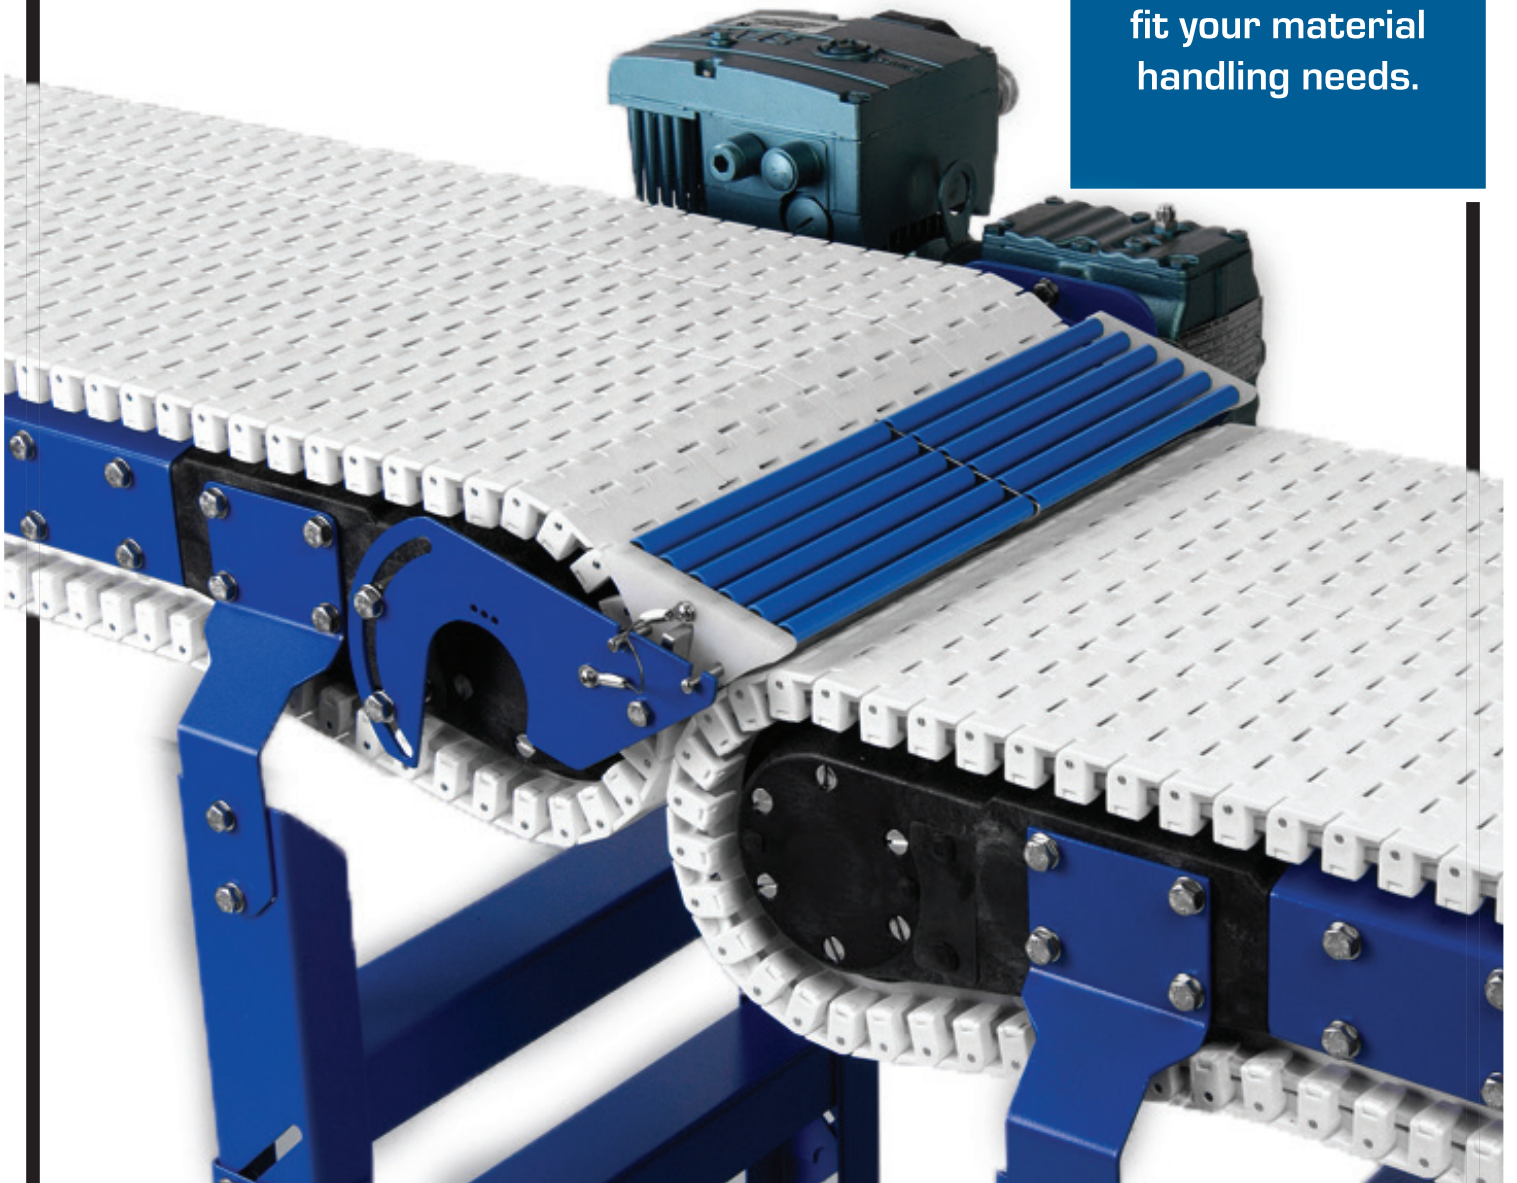

For end-to-end transfers, nose bar gaps can be: 50mm, 10mm or 8mm. This is determined by the system and application.

Recommended For:

E-Commerce • Packaging • Distribution

Completely
customizable to
fit your material
handling needs.

Gravity roller transfers are fitting for non-powered transfer applications. The roller's small nose bar allows smaller products to be transferred flawlessly and without damage. The innovative design makes maintenance and cleaning simple.
