

CLOSED TOP CHAIN

Sometimes you need a conveyor chain with a smooth, closed carrying surface. With no open areas, Closed Top chain adds a measure of safety perfect for operator stations. Closed Top chain has an internal roller which results in extremely low running friction. This means you have the option of creating extra long conveyors of 100' or more.

Closed Top conveyors are straight running, but can carry heavier products due to its robust design.

CHAIN OPTIONS:

- Plain
- Raised Top
- Moving Side Guide
- Pusher Cleat
- Scoop
- Pusher w/ Moving Side Guide
- Scoop w/ Moving Side Guide

PITCH

- 25mm (0.98")

AVAILABLE WIDTH RANGE

- 95.6mm - 1205.6mm

MATERIAL OPTIONS

Available in materials resistant to most chemicals and temperatures ranging from -40° to 220° F
