

MAXISPAN CHAIN

MaxiSpan chain is adaptable in design and a top choice for its product cooling capabilities. The innovative MaxiSpan chain is modular in design and could cost you less.

MaxiSpan utilizes a 75 percent open design. Liquids and debris are able to fall through the chain meaning there is less downtime due to conveyor cleaning. The MaxiSpan's open design also equals cost savings, due to reduced material use. Horizontal curves, inclines, declines, and straight sections are all possible in one continuous conveyor, often eliminating the need for transfers. The modular design also allows for individual sections of the chain to be opened making service and maintenance a breeze.

CHAIN OPTIONS:

- Plain
- Raised Top
- Moving Side Guide
- Pusher Cleat
- Pusher w/ Moving Side Guide

PITCH

- 50mm

AVAILABLE WIDTH RANGE

- 209.8mm - 1209.2mm

MATERIAL OPTIONS

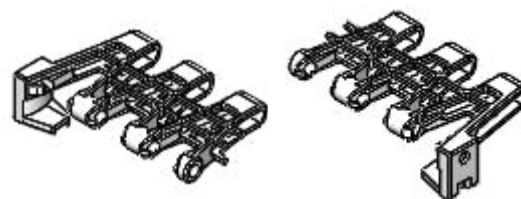

Available in materials resistant to most chemicals and temperatures ranging from -40° to 220° F

USDA APPROVED

BISSC CERTIFIED

Perfect for cooling and metal detectors applications.
