

EZGUIDE™

FIXED & ADJUSTABLE GUIDE RAIL

FEATURES & BENEFITS

ELIMINATES SAFETY CONCERNS

No protruding brackets or rods. All the mechanics of EZGUIDE™ are done without the need to protrude past the conveyor keeping everything safe for those walking close or near.

ADJUSTABLE THROUGH CURVES

The radius of EZGUIDE changes as the guide width is increased/decreased in the curve.

FASTER CHANGEOVERS

Additional tools are not required when adjusting the guide rail, which reduces product changeover time.

PRODUCT JUSTIFICATION

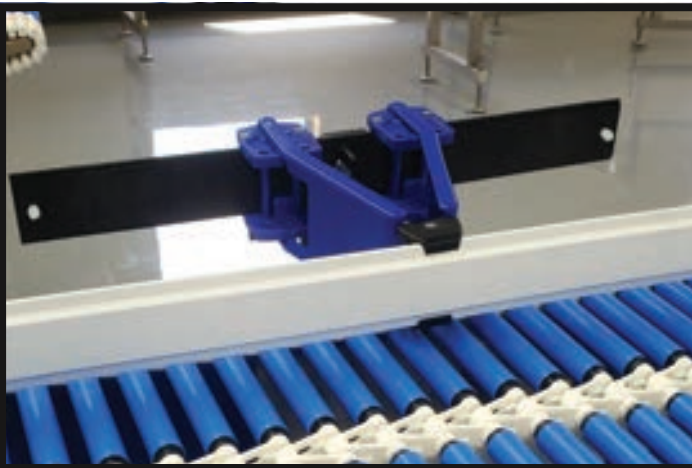

*Combine **Fixed** and **Adjustable** to give you ultimate control of which side of the conveyor you would like your product to be justified to.*

QUICK & COST EFFECTIVE INSTALLATION

EZGUIDE™ is flexible enough to install yourself allowing you to bend the railing to the radius you desire on site.

GUIDE RAIL OPTIONS:

- Flat Face Hard Coat Anodized (Black)
- Flat Faced HDPE Coated (White)
